

BANGAY, CHRISTIAN R.

WORK EXPERIENCE

Full-time Position (Junior Front-End Engineer)

Dreamforge Innovations Inc. | June 2024 - Current

- Responsible for transforming the user interface and enhancing the overall user experience. Leveraging React JS and various CSS libraries to create intuitive, efficient, and engaging front-end interfaces. Additionally, accountable for seamless API integration, ensuring a smooth and responsive user experience by employing the latest technologies and industry best practices.

On-the-job training (OJT) (Project Management/Front-End)

Gothong Southern Shipping Lines Inc. | 2023 - 2023

- Developed a system for interns and employees.
- Provided tech support and guidance to employees.
- Maintain upkeep of computers, office equipment, and printers across the offices.

PROJECT/S

DSWD Project Resolve at Dreamforge Innovations Inc. (Full-time)

- Designed and developed a responsive and intuitive web application for the Pamantasan ng Lungsod ng Maynila website. This user-friendly platform enhances accessibility and usability for visitors, providing an engaging and seamless browsing experience.

ENHANCEMENT OF AUSTERO ET AL.'S WHALE OPTIMIZATION ALGORITHM ON SOLVING COURSE TIMETABLING PROBLEMS (Thesis)

- Developed an enhancement for the Whale Optimization Algorithm (WOA) customized for tackling University Course Timetabling Problems. This adaptation significantly improves scheduling efficiency and accuracy, offering a promising solution to streamline academic scheduling processes.

InternConnect: ORASAN at Gothong Southern Shipping Lines Inc. A Web-Based OJT-Monitoring System for GSSLI (OJT)

- Led a team of 11 as both Project Manager and Lead Front-End Developer to create an intuitive monitoring system for tracking the Daily Time Records (DTR) of OJT interns. This user-friendly platform streamlines the experience for employers, enabling precise and efficient tracking of interns' attendance and progress. My role involved overseeing project execution while driving the front-end development to ensure an engaging, responsive user interface.

MAPA at Gothong Southern Shipping Lines Inc. (OJT)

- Led the design and development of a Web-Based Map Application and Proximity System for GSSLI, serving as both Project Manager and Lead Front-End Developer. This application provides users with precise mapping and location services, enhancing navigational ease and accessibility. My contributions included managing the project lifecycle, coordinating team efforts, and implementing a responsive, intuitive front-end to improve user experience and functionality.
