

CHRISTIAN BANGAY

FRONTEND SOFTWARE ENGINEER

871 San Sebastian St. Tondo, Manila, Philippines • 0993-916-4171 • chanbangay@gmail.com
<https://christian-bangay.vercel.app/>

PROFILE

Frontend Software Engineer focused on building scalable and maintainable web applications using React, Next.js, and TypeScript. Experienced in full-stack development, REST API integration, Microsoft Azure deployments, CI/CD, and end-to-end testing with Playwright. Strong emphasis on performance, clean architecture, and user experience.

WORK EXPERIENCE

Frontend Software Engineer - MNA Ventures FZCO (Full Time) **Mar, 2026 – Current**

Stack: Next.js, Tailwind CSS, .NET, Node.js, Typescript, Microsoft Azure

- Built and maintained scalable web applications using Next.js, TypeScript, and Tailwind CSS, emphasizing performance, accessibility, and reusable component architecture.
- Integrated frontend applications with .NET and Node.js REST APIs, implementing efficient data fetching, state management, and robust error handling.
- Managed application deployments and CI/CD workflows on Microsoft Azure, ensuring reliable releases across development and production environments.
- Developed and maintained Playwright end-to-end test suites to validate critical user workflows and improve release confidence.

Full Stack Developer - Optima Solutions LLC. (Full Time) **Aug, 2025 – Mar, 2026**

Stack: Next.js, TypeScript, SASS, Laravel

- Developed and maintained a content management system (CMS) supporting complex, content-driven workflows.
- Built responsive and accessible user interfaces using Next.js, TypeScript, and SASS, following modern UX and accessibility best practices.
- Developed and integrated backend functionality using Laravel, ensuring secure, maintainable, and scalable REST APIs.
- Integrated OpenAI APIs to implement AI-powered features while contributing to code reviews, documentation, and long-term maintainability.

Frontend Software Engineer - Dreamforge Innovations Inc. (Full Time) **Jun, 2024 – Aug, 2025**

Stack: React.js, Tailwind CSS, .NET, Laravel, Node.js

- Developed responsive and user-friendly interfaces using React and Tailwind CSS.
- Integrated frontend applications with .NET, Laravel, and Node.js backend APIs.
- Focused on performance optimization, reusable component design, and maintainable frontend architecture.
- Collaborated closely with backend developers to ensure reliable data flow and consistent application behavior.

Stack: Next.js, React.js, Tailwind CSS, Mantine UI, Node.js

- Built an all-in-one accounting + inventory web app with Next.js and Tailwind CSS (items, stock movements, purchases/sales, invoicing, reports).
 - Integrated the frontend with Node.js APIs, focusing on reusable UI components, clean architecture, and performance on data-heavy screens (search/filter, pagination).
-

EDUCATION

Bachelor of Science in Computer Science

- **Graduated:** September, 2024
 - **Relevant coursework:** Data Structures and Algorithms, Software Engineering, Computer Networks
-

PROJECTS

- **Braendz:** Trademark protection platform featuring AI-assisted brand search, clearance, continuous monitoring, and scalable cloud deployment on Microsoft Azure.
 - **Cascadia Labs:** Marketplace platform for licensed physicians with secure authentication, affiliate management, and comprehensive product, order, and user management.
 - **Geo Ads Map:** Interactive geospatial advertising platform with map visualization, geo-targeted campaign management, and responsive user interfaces.
 - **Just Holistics:** Health community platform with CMS, AI-powered features, health protocols, discussions, and advanced search capabilities.
 - **Pasig Queuing Management System:** Digital queuing and appointment management system for Pasig City Hall, featuring kiosk, admin, and mobile interfaces with seamless API integration.
 - **OMMS:** All-in-one accounting and inventory management system covering invoicing, purchasing, inventory, stock adjustments, and reporting workflows.
-

TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, Tailwind CSS, SASS, HTML5, CSS3,
 - **Backend:** Node.js, NestJS, Laravel (PHP), ASP.NET (.NET)
 - **Database:** MSSQL, MySQL, Typesense, NoSQL
 - **AI:** OpenAI API integration, prompt design and refinement
 - **Cloud & Devops:** Microsoft Azure, Git, GitHub, REST APIs, CI/CD
-

CORE COMPETENCIES

- **Frontend Engineering**
- **Full-Stack Development**
- **REST API Integration**
- **Cloud Deployment & CI/CD**
- **End-to-End Testing**
- **Performance Optimization**
