PROFILE

Full Stack Software Developer with professional experience building content-driven and feature-rich web applications. Strong foundation in modern JavaScript and TypeScript frameworks, CMS development, and responsive, accessible UI design. Experienced working across frontend, backend, search, and data layers, with exposure to cloud-hosted environments and generative AI integration. Motivated by roles that value clean architecture, collaboration, and long-term impact in education and research-driven products.

WORK EXPERIENCE

Full Stack Developer - Optima Solutions LLC. (Full Time)

Aug, 2025 – Present

Stack: Next.js, TypeScript, SASS, Laravel

- Developed and maintained a content management system (CMS) supporting complex, content-driven workflows.
- Built responsive and accessible user interfaces using Next.js and SASS, aligned with modern UX and accessibility principles.
- Developed and integrated backend functionality using Laravel, ensuring secure, maintainable APIs.
- Implemented search and discovery features using Typesense to deliver fast and relevant results across large datasets.
- Integrated generative AI features using OpenAI APIs, refining structured prompts to improve output quality and relevance.
- Contributed to code reviews, documentation, and shared coding standards to support long-term maintainability.

Frontend Engineer - Dreamforge Innovations Inc. (Full Time)

Jun, 2024 – Aug, 2025

Stack: React.js, Tailwind CSS, .NET, Laravel, Node.js

- Developed responsive and user-friendly interfaces using React and Tailwind CSS.
- Integrated frontend applications with backend APIs built using .NET and Node.js / NestJS.
- Focused on performance optimization, reusable component design, and maintainable frontend architecture.
- Collaborated closely with backend developers to ensure reliable data flow and system behaviour.

Frontend Developer - Freelance

Jul 2023 – May, 2024

Stack: Next.js, React.js, Tailwind CSS, Mantine UI, Node.js

- Built an all-in-one accounting + inventory web app with Next.js and Tailwind CSS (items, stock movements, purchases/sales, invoicing, reports).
- Integrated the frontend with Node.js APIs, focusing on reusable UI components, clean architecture, and performance on data-heavy screens (search/filter, pagination).

EDUCATION

Bachelor of Science in Computer Science

- **Graduated:** September, 2024
 - **Relevant coursework:** Data Structures and Algorithms, Software Engineering, Computer Networks
-

PROJECTS

- **MKT Market Group:** Developed a secure online marketplace platform for selling peptides exclusively to licensed physicians, built comprehensive admin system for product, order, and user management, implemented affiliate system for partner tracking and commission management, ensured secure authentication, role-based access control, and scalable backend APIs.
 - **Geo Ads Map Visualization:** Developed interactive map visualization, implemented geo-targeted ad storage and management, ensured responsive UI and maintainable backend APIs.
 - **Just Holistics:** Built CMS for managing and discussing health protocols, enabled collaboration between users and health practitioners, designed user-friendly and accessible interfaces.
 - **Discussion Platform:** Developed medical protocols platform for peer review and discussion, integrated fast search with Typesense, implemented secure backend APIs and reusable frontend components.
 - **Pasig Queuing Management System:** Built city hall queuing system with kiosk, admin, and mobile appointment interfaces, ensured responsive PWA design and seamless API integration.
 - **DSWD Project Resolve:** Developed disaster assistance web app for reporting, validation, and monitoring, delivered accessible and responsive UI with proper state management.
 - **OMMS** - Built an all-in-one Accounting + Inventory Management web app using Next + Tailwind CSS + Mantine UI, covering invoicing/purchases, item management, stock-in/out, adjustments, and reporting workflows
-

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Tailwind CSS, SASS, HTML5, CSS3, JavaScript, TypeScript
 - **Backend:** Node.js, NestJS, Laravel (PHP), ASP.NET (.NET)
 - **Data & Search:** Transactional SQL (T-SQL), MySQL, NoSQL, Typesense
 - **AI:** OpenAI API integration, prompt design and refinement
 - **Cloud & Tools:** Git, GitHub, REST APIs
-

CORE COMPETENCIES

- **Full-Stack Development**
- **Software Architecture**
- **Code Quality & Documentation**
- **Problem-Solving**
- **Accessibility & Responsive Design**
- **Collaboration & Knowledge Sharing**
